

DP800F

5-Inch Wall Touch Panel

Description

The DP800F 5-Inch Wall Touch Panel is a compact control interface designed for the DP series DSP audio processing system. It provides quick access to key system functions such as preset scene recall, master volume control, and channel gain adjustment, enabling efficient on-site audio management.

Featuring a 4-inch IPS capacitive touchscreen and RS485 communication interface, the DP800F is suitable for integration into standard 86-type wall boxes, making it ideal for fixed installation in professional audio environments.

Features

- Master volume adjustment for overall system control.
- Individual input and output volume control support.
- Scene recall function for quick preset configuration switching.
- 4-inch IPS capacitive touchscreen (480 × 480 resolution).
- Embedded system-free design for fast response operation.
- RS485 communication interface for DSP system integration.
- Standard 86-type wall box compatible installation design.
- Compact form factor: 90.7 × 90.7 × 27.9 mm.

Specifications

Model	DP800F
Size	4 inch
Resolution	480*480
Color	65K, 16-bit RGB
Voltage	9-18V
Communication Port	RS485
Effective Screen Size	L×W=71.9mm × 70.2mm
Dimension	L×W×H=90.7mm × 90.7mm × 27.9mm
Working Temperature	-20~70°C
