

MR8150

8-Inch High-Power Marine Speaker with RGB LED Lighting

Description

MR8150 is an 8-inch high-power marine speaker designed to deliver powerful and clear sound for yachts, boats, and other marine entertainment applications. Equipped with an 8-inch PP cone woofer and 1-inch compression driver, it delivers high output with a rated power of 150 W and sensitivity of 87 dB. Built-in RGB LED lighting provides multiple color options, adding a dynamic visual effect to marine audio installations.

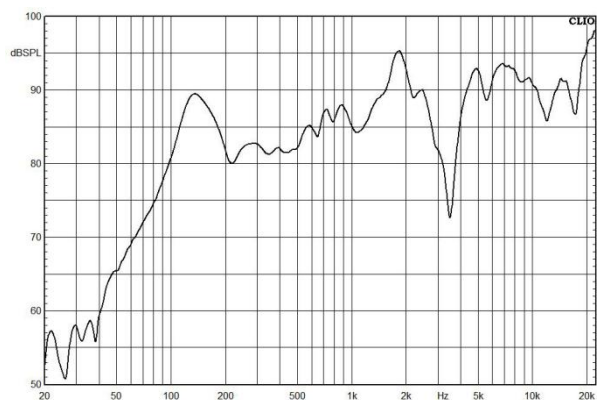

Features

- 8-inch high-power marine speaker for powerful and clear sound reproduction.
- 150 W rated power with 87 dB sensitivity for high-output audio performance.
- PP cone woofer and compression driver for balanced and detailed sound.
- Built-in RGB LED lighting with multiple color options for a dynamic visual effect.
- 4Ω impedance for flexible system configuration with compatible amplifiers.

Specifications

Model	MR8150
Speaker Drivers	8" × 1" + 1" × 1"
Frequency Response	100 Hz–20 kHz
Rated Power	150 W
Sensitivity	87 dB
Maximum SPL	109 dB
Impedance	4Ω

Frequency Response
(dB SPL, 1W, 1m)

Distortion
(% THD, 1W, 1m)
