

D6563F

8-Inch 150W Outdoor Two-Way Full Range Loudspeaker

Description

The D6563F is a professional 8-inch two-way loudspeaker engineered for clear and powerful sound reinforcement. It features an all-weather, waterproof polyurea-coated enclosure with a phase-inverted design for enhanced low-frequency performance. Multiple mounting options—including wall, ceiling suspension, and floor stand—offer flexible installation, while its high sensitivity and 90° × 40° coverage ensure robust and uniform sound distribution for a variety of fixed installation applications.

Features

- All-weather design with phase-inverted bass-reflex two-way loudspeaker system.
- Enclosure finished with waterproof polyurea coating; metal grille backed with acoustic damping material.
- Three top-mounted suspension points enable vertical hanging using rigging rings and ropes in conjunction with rear suspension points.
- Two rear and side mounting points accommodate D3A wall-mount bracket installation.
- Bottom slot supports D5A wall-mount bracket or D6A floor-standing tripod mounting.

Specifications

Model	D6563F
Unit	8" Bass×1, 1.35" Treble×1
Frequency Response (±3dB)	80 Hz -18,000Hz
Sensitivity	95±2dB
Max. SPL	117±2dB
Input Impedance	8Ω
Rated Power	150W
Directivity (H×V)	90°× 40°

Dimensions (H×W×D)

430×240×235mm

Weight

9.7kg
