

D6566

15-Inch Professional Two-Way Full Range Speaker

Description

The D6566 is a professional two-way loudspeaker. Featuring a 15-inch bass driver and a 1-inch treble driver, it delivers clear and sonorous sound reproduction. Designed with a wide frequency response of 55Hz to 18kHz, the system offers high build quality and long-term durability, maintaining structural integrity over extended use. It is an ideal choice for karaoke rooms, live performances, conference events, shopping malls, and other small-scale high-fidelity sound reinforcement applications.

Features

- Two-way full-range loudspeaker enclosure with bass-reflex technology.
- Equipped with high-quality woofer and tweeter transducers to ensure exceptional acoustic performance.
- Anti-resonance enclosure design; painted metal grille with acoustic damping material.
- Tweeter employs advanced high-frequency damping technology for clearer and more articulate treble reproduction.
- Woofer features reinforced paper cone and a proprietary magnetic circuit design, delivering enhanced resonant bass response.

Specifications

Model	D6566
Driver Unit	15" bass×1, 1" treble×1
Frequency Range (±3dB)	55 Hz -18,000Hz
Sensitivity (1m, 1W)	99dB

Max SPL	126dB
Input Impedance	8Ω
Rated Power	450W
Directivity (H×V)	90°×40°
Dimension (H×W×D)	690×440×450mm
Weight	27.4kg
