

LA1420SF

18-Inch Professional Waterproof Array Subwoofer

Description

This product is a professional long-excursion array weather-resistant subwoofer engineered for powerful and impactful low-frequency output. The enclosure is constructed from marine-grade plywood, ensuring high reliability and structural integrity, while all metal hardware is fabricated from high-quality aluminum alloy. The system is well suited for a wide range of applications.

Features

- Enclosure constructed from marine-grade plywood with comprehensive waterproof treatment; all metal hardware fabricated from high-quality aluminum alloy.
- Equipped with a long-excursion woofer engineered to deliver powerful and impactful bass response.
- Optimized for mobile and portable applications.
